PARK & STAY permit holders

For our **PARK & STAY** guests please follow instructions to the next available marked out bay. Please switch off your car including the lights and make yourself comfortable in your bay. You can leave this bay to visit the facilities like toilets and concessions.

If you wish to park next to your family please arrive in convoy as you will parked up in order as you arrive. If you have a high vehicle please park on the back row.

Please print your tickets where possible as they scan quicker. It is also helpful if you can supply them all the same way up for ease of finding the barcodes.

After the 4th and final firework display you may leave but we ask you not to start your engines until its your turn to leave. We will leave by columns/rows to try and stop everyone rushing to the exit at the same time, so please follow instructions given out by our steward. Please be patient and respect the stewards. No Gazebos allowed in this area.

Walking from your car to the toilets/food: We have allowed a walkway between the front of your car and the boot of the next.

No BBQs, stoves or naked flames are permitted in park & stay.

You will not be allowed to leave before the 4th display unless it is an emergency.
